I personally am ready to quit...it seems like there is no hope...I guess we'll just have dumpsters all over the parking lot until we can get some reform organized...this is awful.

I'm sorry to have to report that the City's CDO planner is insisting that the Super Block trash enclosure improvements be irrigated (no change at all from when we started to work with this project how long ago) and that an elevation of the improvements be prepared (a new requirement).

Miki, you and I have turned ourselves inside out trying to make this a constructive experience that helps the community grow together with Council Office and City staff. So what do we do now?

How very frustrating.
